INFORMAÇÕES DIVERSAS

INFORMACIÓN DIVERSA

INFORMATION MISCELLANEOUS

MISCELLANEOUS INFORMATION

INJEÇÃO DE POLIURETANO

Mediante orçamento poderemos disponibilizar a injeção de espuma de poliuretano nos mais variados artigos, como por exemplo perfis de alumínio, perfis de alumínio de rotura térmica ou outros.

INYECCIÓN DE POLIURETANO

Mediante presupuesto podemos disponibilizar la inyección de espuma de poliuretano en los más variados artículos, como por ejemplo perfiles de aluminio, con o sin ruptura térmica.

INJECTION DE POLYURÉTHANE

Sur un budget, nous pouvons offrir l'injection de mousse de polyuréthane dans divers articles tels que des profilés en aluminium, sans ou avec rupture thermique.

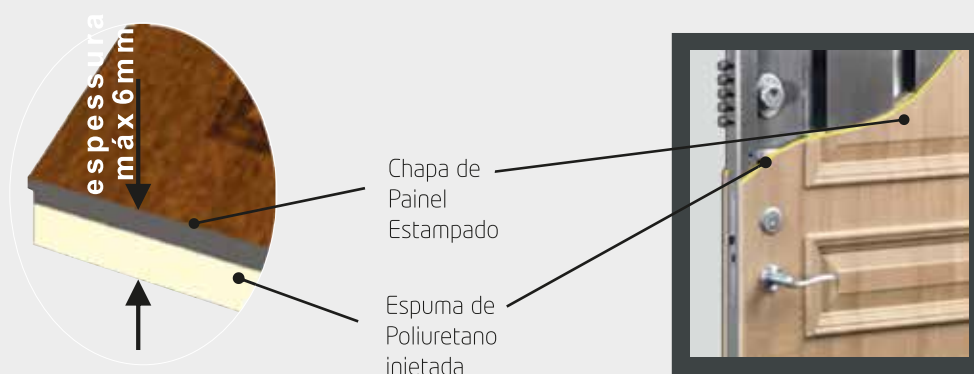

POLYURÉTHANE INJECTION

On a budget, we can offer the injection of polyurethane foam in various articles such as aluminum profiles, without or with thermal break.

CHAPAS PARA PORTAS DE SEGURANÇA

Na área das portas de segurança, além das tradicionais chapas de painel estampadas para revestir portas de segurança, a Bramolde oferece a seguinte solução para esta área:

Chapas de painel (2100x1000), lisas ou estampadas, c/ injeção de poliuretano, para uma espessura final total de 6mm.

CHAPAS PARA PUERTAS DE SEGURIDAD

En el área de las puertas de seguridad, además de las tradicionales chapas de panel estampadas para revestir puertas de seguridad, Bramolde ofrece la siguiente solución innovadora para esta área:

Chapas de panel (2100x1000), lisas o estampadas, con inyección de poliuretano, para un espesor final total de 6mm.

PLANCHES POUR LES PORTES DE SÉCURITÉ

Dans le domaine des portes de sécurité, en plus des panneaux traditionnels emboutis pour recouvrir les portes de sécurité, Bramolde propose la solution innovante suivante pour ce domaine:

Plaques de panneaux simples ou emboutis (2100x1000), avec injection de polyuréthane, pour une épaisseur finale totale de 6mm.

PLATES FOR SECURITY DOORS

In the area of security doors, in addition to the traditional stamped panels to coat security doors, Bramolde offers the following innovative solution for this area:

Plain or stamped panels (2100x1000), with polyurethane injection, for a total final thickness of 6mm.

NOTA: Neste processo não é possível injetar chapas RÉGUA, ANADIA, ANGRA, ÍLHAVO, nem chapas Retiline.

NOTA: En los paneles con un estampado en relieve negativo (Anadia, Angra, Ílhavo, Régua y RETILINE) no se puede inyectar poliuretano para el espesor total de 6mm.

REMARQUE: Sur les panneaux avec emboutissage négatif (Anadia, Angra, Ílhavo, Régua et RETILINE), il est impossible d'injecter du polyuréthane pour une épaisseur totale de 6 mm

NOTE: On panels with negative stamping (Anadia, Angra, Ílhavo, Régua and RETILINE) it is not possible to inject polyurethane for the total thickness of 6mm.

PERFIS DE ALUMÍNIO

Disponibilizamos, mediante orçamento, a injeção de poliuretano em perfis, normais e/ou de rotura térmica.

Em comprimento superior a 3 metros só se efetua mediante análise detalhada do tipo de artigo referido no pedido de orçamento.

PERFILES DE ALUMINIO

Ofrecemos, dentro del presupuesto, la inyección de poliuretano en perfiles, rotura normal y / o térmica.

La inyección de poliuretano en perfiles, normales y de ruptura térmica, de longitud superior a 3 metros sólo se efectúa mediante consulta y presupuesto.

PROFILS EN ALUMINIUM

Nous proposons, dans les limites du budget, l'injection de polyuréthane dans les profilés, à rupture normale et / ou thermique.

L'injection de polyuréthane dans des profils normaux et de rupture thermique, de longueur supérieure à 3 mètres il ne fonctionne que sur demande et le budget.

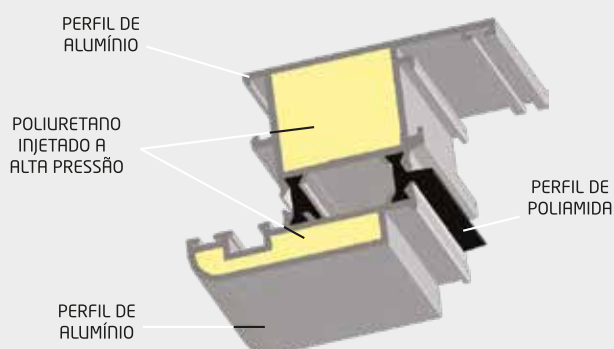

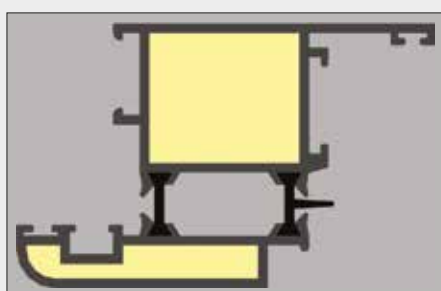

ALUMINUM PROFILES

We provide, upon budget, the polyurethane injection profiles in normal and / or thermal break.

The injection of polyurethane in profiles, normal and of thermal rupture, of Length greater than 3 meters it is only done through consultation and budget

PERFIL DE ROTURA TÉRMICA

Perfil que permite a redução na condutividade térmica, pela inclusão de uma interface composta por poliamida e injeção de poliuretano.

PERFIL DE ROTURA TERMICA

Perfil que permite la reducción en la conductividad térmica, por la inclusión de una interfaz compuesta por poliamida e inyección de poliuretano.

PROFIL DE RUPTURE THERMIQUE

Profil qui permet la réduction de la conductivité thermique, par l'inclusion d'une interface composée d'injection de polyamide et de polyuréthane.

THERMAL BREAK PROFILE

Profile that allows the reduction in the thermal conductivity, by the inclusion of an interface composed of polyamide and polyurethane injection.
